SEMESTER-I

FUNCTIONAL ENGLISH (VOCATIONAL)

**PHONETICS AND PHONOLOGY
 (PRACTICAL)**

Marks: 40

The main emphasis in the practical examination should be to assess the pronunciation of the examinees. Some of the suggested tasks for practical examination are given below:

- The examinees may be asked to pronounce some individual words, or loudly read a passage. **10 Marks**
- The examinees may be asked to form groups and to engage in conversation on the given topic. **10 Marks**
- The examinees may be asked to listen to a recorded conversation and transcribe that conversation. **10 Marks**
- Any other practical activity **10 Marks**

Note: The examiner may use some other similar modes of testing.

Suggestions for Teaching:-

1. Lists of minimal pairs may be used (e.g. cot–court, ship–sheep, etc.) for practice in listening and speaking.
2. Emphasis is to be placed on the use of spoken language rather than on theory. Once the learners are familiar with the speech sounds, patterns of stress and intonation, they must be given intensive practice in these areas.
3. It must be made clear that the model of pronunciation is not strictly R.P. Learners should follow the dictionary as closely as possible but wherever there are differences between R.P. and the sounds used in Indian English, these differences can be accepted if they do not interfere with intelligibility and clarity of speech. (Teachers may not insist on a perfect articulation of RP sounds).
